

HELP FOR JUDGING KCC COMPETITIONS

We ask the judge to give his judgement on the merit of each image as seen, a simple title will be displayed and announced as a guide only, to assist with the interpretation of an image (where applicable).

We ask that the comments and marks reflect on the photographic merit of the image and NOT the title.

Scoring

Marks out of 20, no half marks and we would ask for a wide range of marks to be used where applicable.

1st, 2nd, 3rd and Highly Commended (number of up to 5 HC images at the judge's discretion)

The competition software allows any number of images to be held back for further consideration.

Entries

Prints will be made available for inspection prior to the competition on the evening and a short preview of projected images will be shown before judging.

A projected image of a print entry will be projected at the same time as the print is assessed by the judge. We ask that the judge places the critique and mark on the PRINT alone and that the PDI is for the audience's benefit only.
